

Datasheet: Vogue Theatre

Opening in South Gate, California in 1935, the Vogue Theatre offered a grandiose experience designed to keep patrons coming back for more. The theatre was designed by S. Charles Lee, a prolific West Coast architect well known for designing theatres in Art Deco and Modern styles throughout California and Mexico. The Vogue Theatre offered plush seats, golden torches, formal pilasters, and a Japanese style mural, all to transport the audience from their daily lives.

Our Reclaimed Wood is **heat treated** and **metal free!**

Source: Vogue Theatre, South Gate, CA

Prior Use: Attic rafters

Species: Douglas Fir (*Pseudotsuga Menziesii*)

Certified: FSC® Recycled 100%

Specifications: ¾" x 6-3/4" x random length, Tongue & Groove

Character: Rough sawn original patina, light to dark brown color variation, knots, checking, and nail holes

Material #: VT-DF
